

# NUMENERA™

## I Want to Run Numenera™ on International TableTop Day!

### ITTD Event Organizer:

I want to run a Numenera game at your International TableTop Day event! I'll run a great game for four to six players. Here's what I need:

- A table that seats five to seven people
- A timeslot equivalent to that of a longer board game (two to four hours)
- A crowd of gamers looking to enjoy the fun of tabletop gaming (which I'll help help draw to your event!)

### Numenera GM:

Here's what you need to do:

- Know how to run the Cypher System, and Numenera. If you're doing this at an official International TableTop Day event, it's best if you've had experience running Numenera before.
- Download the *Weird Discoveries* free preview from the Monte Cook Games web store. It explains how the instant adventures format works, and how running instant adventures differs just a bit from the GMing techniques you might be used to.
- Register your event with MCG at <http://bit.ly/1DnprlN>, so we can send you the adventure!
- If you're doing this at an official International TableTop Day event, coordinate with the event organizers on the timing and location of your game. You can show them this flyer.
- Run a rockin' Numenera game on International TableTop Day, **April 11th, 2015**.
- We'll ask you a few questions after the event. Answer them, and you're in our prize drawing!
- Check out all the details about this thing at the Monte Cook Games web site ([www.montecookgames.com](http://www.montecookgames.com)).
